

SINGLE-COMPONENT TRANSPARENT
WATERPROOFING

THREE SURFACES · ONE SOLUTION

For Concrete, Wood & Metal Surfaces

DURABLE PROTECTION AND INSULATION

TB SEALER

It Protects, It Shines, It Endures

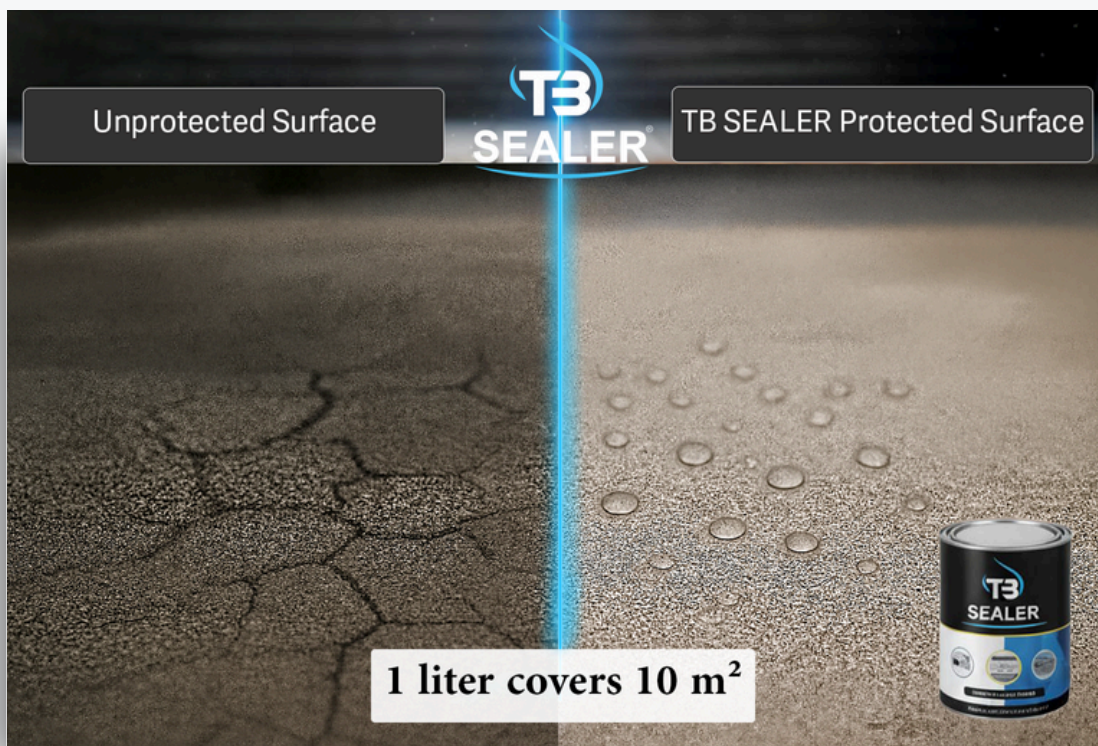

With its bio-based, transparent, advanced formula, TB SEALER penetrates deeply into the surface to provide advanced, long-lasting waterproofing and protection—without hiding the material's natural texture and appearance.

TB SEALER is a transparent, bio-based barrier that penetrates the surface while preserving its natural texture. It delivers long-lasting resistance to water, moisture, vapor, dirt, and chemicals—preventing cracking, dullness, and surface wear. Its flexible, durable structure absorbs temperature-related movement and keeps surfaces looking pristine for years.

ADVANTAGES

The Main Strengths of TB SEALER

- ◆ ***Full Waterproofing & Long-Lasting Protection***

Forms a strong barrier against rain, moisture, vapor, and environmental exposure.

- ◆ ***UV and Acid Resistance***

Provides enhanced protection against sunlight and chemical or acidic effects.

- ◆ ***High Resistance to Dirt and Chemicals***

Shields the surface from dirt and soot, making cleaning easier and preserving durability.

- ◆ ***Transparent, Texture-Preserving Structure***

Maintains the surface's natural look while reducing dullness and enhancing overall clarity.

- ◆ ***Flexible and Durable Formula***

Adapts to temperature changes and prevents cracking, blistering, and peeling.

- ◆ ***Single-Component, User-Friendly Application***

Offers a practical, fast, and effortless solution for both professionals and everyday users.

APPLICATION AREAS

Outdoor Surfaces

- Exterior Facade Surfaces
- Balcony & Terrace Floors
- Garden Paths & Landscaping Stones
- Stairways & Natural Stone Surfaces
- Outdoor Ground Areas (parking lots & walkways)

Indoor & Structural Surfaces

- Wood Pergolas & Verandas
- Wood & Metal Prefabricated Structures
- Warehouse, Hangar & Industrial Floors
- Door and Window Frames
- Arches, Columns & Architectural Stone Details

Superior Transparent Protection

on Mineral Surfaces
